

# CONGREGATION OF SISTERS OF ST. AGNES

MOTHERHOUSE  
FOND DU LAC, WISCONSIN

---

Continuing a decade-long relationship, the Sisters of St. Agnes in Fond du Lac, Wisconsin, asked Hoffman to assist them in addressing the needs of their Motherhouse. After a site and building analysis determined that their existing facility was not a candidate for renovation, Hoffman developed a master plan for the Sisters and ultimately designed and constructed their new Motherhouse.

The facility features independent living space for the Sisters, a conference center, dining area, and archival space. The design of the facility in-

corporates an existing stream on site that serves as its focal point, dissecting the building into an administrative portion and living quarters.

**SCOPE:** New Construction  
**COMPLETION DATE:** 2/2002

**PROJECT ACHIEVEMENTS:**

- Best Design-Build (Design Build Institute of America)
- Merit Award (Association of Builders and Contractors, Inc. | Wisconsin Chapter)
