

SISTERS OF ST. FRANCIS OF THE HOLY CROSS

MOTHERHOUSE
GREEN BAY, WISCONSIN

Saddled with a facility that was outdated, in need of major renovations and repair, and didn't suit their needs, the Sisters of St. Francis of the Holy Cross in Green Bay, Wisconsin, selected Hoffman to design and build for them a new Motherhouse.

The 51,500 square foot building, which is energy efficient and right-sized for the needs of their aging community, features 35 bedrooms with handicap accessible private baths, office space, a community room, chapel, library, and courtyard. The facility's design was geared toward lowering maintenance and operating costs and

improving life safety for the Sisters. It is situated on a 12-acre parcel, and trees, wetlands and other vegetated areas were preserved to enhance the Motherhouse grounds and the surrounding neighborhood. The site was master planned to allow for future expansion.

SCOPE: New Construction
AREA: 51,500 sq. ft.
COMPLETION DATE: 6/2006
